0 300 600 1,200 Feet

This map is intended for general planning purposes only and is not intended for site specific analysis. Frederick County is utilizing the soil data obtained from USDA's Natural Resource Conservation Service and the tax map data obtained from the State of Maryland's 2002 Property View Package AS IS; no modifications have been made to the data layers. Frederick County recognizes that inaccuracies may exist and accepts no responsibility for positional inaccuracies, errors, or omissions. Reliance on the data presented on this map is at the risk of the user.

The Soil Survey Geographic (SSURGO) data base was produced by the U.S. Department of Agriculture, Natural Resources Conservation Service and cooperating agencies for the Soil Survey of Frederick County, Maryland. The soils were mapped at a scaleof 1:12000 with a 3 acre minimum size delineation. Enlargement of these maps to scales greater than that at which they were originally mapped can cause misunderstanding of the detail of the mapping. If enlarged, maps do not show the small areas of contrasting soil that could have been shown at a larger scale. The depicted soil boundaries and interpretations derive from them do not eliminate the need of onsite sampling, testing, and detailed study of specific sites for intensive uses. Thus, this map and its interpretations are intended for planning purposes only. Digital data files are periodically updated. Files are dated, and users are responsible for obtaining the latest version of the data.
